FRUIT GROWERS LODGE PROTEST

Appeal from Increased Valuation in their Properties Made by Triennial Assessment. Many Complain.

Fruit growers from Menallen and Franklin townships came to Gettysburg this morning to appeal from the recent raise in assessment rates on their properties. The county commissioners were busy all morning and afternoon hearing the protests which in a number of instances, it is said, were successful.

The raise in the valuations came as a result of the triennial assessment and the fruit farms were the object of a general advance. Fruit growers interviewed at the office of the commissioners stated that orchards had been advanced from \$3 to \$20 an acre over their former valuations and that the corresponding increase in taxes would work a hardship. One of the growers, in talking of the present state of affairs, said:

"It has not been taken into account, apparently, that when an orchard is first planted, the farmer gets less return from it than he would when the ground was under ordinary cultivation and producing grains. Young orchards, not yet in bearing, have been advanced and we do not regard it as just or reasonable."

Another fruit grower argued that his orchard had, during the past fall, produced its first big crop, that for some years past there had been principally outlay and little income from the land, and that he should be given some time to make up for the years when there was scarcely any revenue. His land was advanced \$20 an acre. Others told similar stories and all advanced their arguments.

One of the principal points of attack was that the commissioners in many instances had made these advances, rather than the regular assessors. The commissioners were acting entirely within their rights but the land owners felt that, if increases were to be made, they should be in the hands of the assessors who were, perhaps, better acquainted with local conditions and the actual difficulties with which the fruit grower had to contend.

Some of the men appealing took up a large amount of time so that it was well on in the afternoon before the hearing of the matter was completed. The commissioners were ready to give a fair and complete hearing to all concerned and showed a readiness to make a reasonable adjustment if they could be convinced that the raise in valuation was excessive.

Among the orchardists who appeared at the office this morning were W. S. Adams, Robert Garretson, George E. Hoffman, James O. Hoffman, Amos Griest, Anthony Deardorff, Elias Hoffman, Noah Fleck, D. Ferd Wenk, Jere Taylor, and Harry Brough.

NORTHERN SPAIN

Subject of Lecture this Evening in Brua Chapel.

Prof. B. F. Schappelle will give an illustrated lecture in Brua Chapel this evening on "Northern Spain". Prof. Schappelle's frequent visits to Europe, and particularly to Spain, make him eminently qualified to tell in his entertaining way of the beauties of the country and characteristics of the people. The lecture is one of the college free course and the public is invited. The hour is 8:15.

OUT OF SEASON

Patterson Sees Fifteen Deer on Mountain in Two Herds.

Elmer Patterson, Roadside saw 15 deer on the mountain, a day or two ago. Eleven were in one herd and four in another. Mr. Patterson's elbow was injured while he was unloading wood. A big stick struck him on the arm and caused so much pain that he was compelled to see a physician.

THIRD PERSON IN HANOVER TRAGEDY

Hanover Girl may have Written Some Letters but Another Person is also Believed to be Responsible.

Although the letter received by Earl Miller Saturday was written in the hand of his sweetheart and victim, Edna Hoffman, the case has been complicated by finding another letter at the Hoffman home in the handwriting of a third person. It warns her to beware of William Yingling, a former friend of the girl. He is not able to throw light on the writer's identity.

Edna remains in a critical condition in a York hospital.

The supposition that the love affair between Edna Hoffman and Earl Miller, was made tempestuous by anonymous letters is borne out by the following communication which was found at the Hoffman home. The letter was as follows:

Hanover, Pa., Jan. 31, 1916.

"Dear Edna—We thought we would drop you a few lines to set you wise on several facts, viz—

"Mr. Yingling, the president of our crew, is considerably rough, he incessantly indulges in various papers of profanity. So, in behalf of your own personal sociability, please do not attempt to form any ties of friendship with aforesaid. Hoping you pay due respect to Mr. Yingling who perpetually calls around to your house, we remain,

"In faithful service,

"THE BUNCH."

42nd Division, Sect. A.

The entire letter was written with a pencil, and might have been written by a friend of Earl Miller's, at the latter's suggestion. This seems especially probable when his name is filled in the blank above as the only young man who ever called on Edna for the past six months at least.

Further investigation of this latest letter found, proves almost conclusively by the handwriting that Earl did not write the letter. But whoever did, understood the relation between the two young people perfectly.

GET FINE ANIMALS

97 Elk are Liberated on State Forest Land.

The State game commission announces that ninety seven elk have been brought from the Yellowstone Park (Wyoming) to be placed in the State's game preserves.

Twenty five elk were placed on the preserve in Potter county; twenty four in Cameron county; twenty five in Carbon county, and ten on the line between Forest and Warren counties. Seven have been shipped to Altoona, to be placed with six elk donated, and will be distributed by Blair county sportsmen. The remaining six have been added to the herd in Monroe county which was given to the state in 1913.

There is a closed season on elk until 1921.

WILL NOT CONTEST

Opponents of License Say they will not Fight Case.

Counsel for William Barkdoll, proprietor of the National Hotel, of Greencastle, whose license application had been held up by a remonstrance filed, informed the Franklin County Court that he had been advised by counsel for the remonstrants that they would offer no evidence and make no argument on behalf of the remonstrance, which is practically a withdrawal of the remonstrance.

Judge Gillan had fixed the 28th inst. for the hearing, but now that there will be no hearing, the court will probably grant the license.

HURT BY BARREL

Molasses Laden Barrel Crushes County Man's Hand.

Irvin Little, ticket agent for the Western Maryland at New Oxford, was painfully hurt this morning when a barrel of molasses which he was helping to load on a wagon fell on his hand. The hand was so badly mashed that it was necessary to have several stitches taken to sew up the wounds. Dr. Seaks, the company physician, gave the necessary aid.

GRANDSON FINDS FARMER STRICKEN

Former Director of the Poor Goodenberger Dies at Home of his Son, Lewis, Wife Died Recently.

Jacob Goodenberger, for several years director of the poor in this county, and well known as a farmer in Berwick township and adjoining sections, was found dead about 9 o'clock Tuesday afternoon by his grandson at Farmers, where he had been visiting. Mr. Goodenberger was in the stable, milking the cows when he was stricken and his dead body was found between two of the cattle. He was aged 67 years.

About 3 o'clock the elder Mr. Goodenberger had gone to the barn. The door standing open was discovered by Paul, the thirteen year old son of Mr. and Mrs. Lewis Goodenberger, who also noticed his grandfather lying among the straw. He immediately notified his parents who afterward summoned Dr. T. C. Miller, of Abbotstown. Death was pronounced due to a stroke of apoplexy.

He had been living at the home of his son at Farmers the past six weeks. Prior to that he was living at Abbotstown, where his wife died some few weeks ago. He then moved to his son's residence. He was for many years prominent in politics of Adams county.

He leaves three children, Mrs. Tompest Bortner and Mrs. Luther Berkheimer, both of York; and Lewis Goodenberger, with whom he resided up to the time of his death. No brothers or sisters survive.

The funeral will be held from the residence of his son, Lewis, Saturday morning at 9:30 o'clock. Services will be conducted in Christ Lutheran church, at Abbotstown, by the pastor, Rev. F. C. Sternat. Interment will be made in the cemetery adjoining the church.

A. FOSTER MULLIN

A Foster Mullin, a former resident of Mt. Holly Springs, died at his home in Philadelphia on Sunday, after an illness of ten weeks of grip.

Mr. Mullin was born at Mt. Holly Springs September 14, 1837, and was engaged in the manufacture of paper with his father and brothers for many years. About twenty years ago he went to Philadelphia, where he was engaged in the paper business.

He leaves his wife, a daughter, Mrs. J. L. Zug, and a son, J. D. Mullin, all of Philadelphia; also one brother, W. A. Mullin, of Boiling Springs.

The funeral took place at Mt. Holly Springs this afternoon.

TO ENLARGE FACTORY

Business Brisk at Furniture Plant and Addition will be Built.

Work will be started at once on an addition, 70 x 60 feet, to the mill room at the plant of the Gettysburg Furniture Company. It will adjoin the present room on the north and be of sufficient size to accommodate twenty five more workmen. It is expected that the addition will be ready for use in March. Increase in business which now has the factory on the rush is given as the reason for the new move.

\$10,000 FIRE

Trolley Barns at Waynesboro Burn after Explosion.

Car-barns of the Chambersburg, Greencastle and Waynesboro Railway in Waynesboro, were totally destroyed by fire Tuesday evening together with their contents, including thirteen of the company's cars. The loss will amount to about \$40,000. Half of the loss is covered by insurance. An explosion among some inflammable material is blamed for the blaze.

LOST ANOTHER

Tide in Affairs of Local Quintet has Changed.

The Gettysburg basket ball team which had an almost unbroken string of victories until last Friday night, lost again on Tuesday making a third defeat in as many games. The last disaster was suffered at Emmitsburg when Mt. St. Mary's won 30-25.

DIFFICULTY IN GETTING COLORS

And we may not be Able to Paint our Properties the Shades we Desire if the War Continues. Price Raise also.

Gettysburg property owners who contemplate house painting next spring, will face a new situation with the advance in the price of paints, oils and painters' supplies in general. Since the outbreak of the war many of the pigments imported from European countries, which are used in the manufacture of paint, have advanced to three and four times their normal price. It is almost impossible to get some of the colors at any price.

Both the paint and varnish industries have been affected by the shipping situation between domestic and foreign ports, there being a scarcity in the market of materials such as China wood and soya bean oils, shellac and varnish gums. There has been difficulty in securing supplies of chalk from England and France, as we depend entirely on foreign sources of supply, and it is predicted that whiting prices for next year will be higher as a result.

The price of lead pigments is steadily increasing with the advances in the metal market. Dry white lead is now quoted at 12 cents a pound. White lead in oil is placed at 94 cents a pound. Ordinarily white lead sells for about five cents a pound.

Zinc oxide, another metal product, used extensively by painters, is continually growing scarcer. The reason for this is explained by the fact of its extensive use by automobile manufacturers. The product is used as a body coat in painting automobile fenders. The increased demand for zinc by ammunition makers is another reason for its scarcity. Quotations on American zinc oxide have been up to 30 and 31 cents a pound. The normal price of this product is 10 cents a pound.

The uncertainty regarding the seed supply has caused a spirited advance in the market of linseed oil. The domestic crop has been far below consuming requirements. Canada has produced a small crop and it is evident that the import of seeds will be heavy during the ensuing year.

Should the war continue a long time it is predicted this country will be unable to get many of the paint colors, as many are imported from countries that are now engaged in the war. The umbers come from Turkey, the various shades of red from France, and the blues from Germany. The bronzes, gold and aluminum, mostly come from Germany. The chrome yellows are lead products and are becoming scarce because of the demand for this mineral for ammunition purposes. The increase in the price of crude oil, which is the base for lamp black, has also raised the price of this color.

The effect of the war is also felt in the advanced price of brushes and other supplies. The bristles for brushes are imported from China and Russia. Wire brushes used for grain and other finishing purposes, which came from Belgium, can no longer be secured at any price.

MEETING OF SPORTSMEN

Will Endeavor to Protect Game to be Planted here.

Sportsmen from all parts of the county are urged to attend a meeting in the office of Register and Recorder Gardner at 7:30 Thursday evening when an organization will be formed to protect the game in this county. Mr. Smiley, the local State protector, will soon place a quantity of game in the county and it is the desire to have this cared for until it has had sufficient time to multiply.

CRASH ON BRIDGE

Car and Wagon in Mix-Up on Lincoln Highway.

When the automobile of William Codori Jr. and the lumber team of Samuel Nace met on the east side of the Rock Creek bridge near town Tuesday afternoon Mr. Codori's car was ditched and one of its occupants thrown out, and the tongue of Mr. Nace's wagon was broken. No one was hurt and the automobile was only slightly damaged.

HEAD CRUSHED AT PUMPING STATION

Western Maryland Employee Meets Horrible Death. Found Some Time Later by Fellow Workmen. Leaves Family.

Samuel Butts met a horrible death Tuesday morning at the pumping station of the Western Maryland Railway, at Cherry Run.

The first intimation that any one had that anything had happened was when Daniel Kendrick's, section foreman of the Western Maryland, passed the place and noticed that the machinery was not running. He notified Charles Wiley, foreman of the carpenter gang, and the two went to the pumping station and, gaining admittance to the building, found Mr. Butts' lifeless body, his brains having been crushed out. No one actually saw just how the unfortunate man met his death but from all appearances his clothing was caught in the machinery and he was drawn into the wheel of the gasoline engine, which was moving rapidly.

Mr. Butts, who was a member of the section gang, was employed to run the gasoline engine, which was operated two or three times a week, and was engaged in running the engine Tuesday when the unfortunate accident occurred. The body was only found about 10:30.

The pumping station is located in a rather isolated section and houses are not close to it.

Mr. Butts was aged 60 or 65 years and leaves a wife and seven children, all of whom are grown.

GERMANS DRIVE BACK BRITISH

Smashing Attack Gains 800-
Yards Near Ypres.

MOST OF DEFENDERS KILLED

French Forces Retake Champagne
Positions From Enemy, Paris War
Office Reports.

London, Feb. 16.—British positions over a front of 800 yards near Ypres, Belgium, have been captured by the Germans, the war office announced. The French war office announced the recapture of the part of the advanced trenches occupied by the Germans on February 13, east of the road from Tahure to Somme in the Champagne.

Most of the western fighting front is the scene of heavy engagements. At some points the big guns have been roaring incessantly for days; the infantry has been engaged in hand-to-hand struggles; grenade fighting and mining operations have played a prominent part in the battles, while air men have fought one another above the lines and have been cannonaded from below by the anti-aircraft guns.

The German official statement says: "Southeast of Ypres, after heavy artillery bombardments by way of preparation, our troops captured some 800 yards of British positions. A majority of the defenders of the British trenches were killed. One officer and several dozen men were made prisoners. On the road from Lens to Bethune, after a successful mine explosion, we occupied the border of the crater. The enemy continued the shelling of Lens and its suburbs.

"South of the Somme unsuccessful hand grenade attacks by the French were followed by heavy artillery combats lasting into the night.

"Northwest of Rheims the French attempted gas attacks which failed.

"In the Champagne after strong artillery preparation a weak attack was made against our new position northwest of Tahure. It was repulsed easily.

"East of the Meuse our front between Houthulst and Oxy was shelled vigorously. A night counter attack by the French against the position near Oberst, which we recently conquered from them failed.

Seventeen fights in the air is the record for Sunday reported officially by the British along their lines in Flanders.

A semi-official communication issued in Paris affirms that the frequent German attacks on the French front during the last few days, while intended to give the impression of great activity, are in reality only local actions, without consequence and without gain for the attackers.

ERZERUM IN FLAMES

Russians After Capture of One of the
Forts Are Battering Other Defenses.

Petrograd, Feb. 16.—Several fires are raging in Erzerum, the Turkish city in the Caucasus, now being attacked from three sides by Russian troops, according to advices received at the war office.

The city is practically depopulated, more than 35,000 inhabitants having fled westward toward Erzurum. Following the capture of one of the forts defending Erzerum from the east, Russian artillery is battering other forts to the north and south. Shells hurled upon the forts, which are modern defenses erected outside the city wall have set numerous fires.

ITALIANS BATTLE IN ALBANIA

First Big Clash With Austrians Takes
Place Near Durazzo.

Zurich, Feb. 16.—Severe fighting is in progress between Austrian and Italian troops on the heights between Durazzo and Tirana in Albania, says the German newspaper Vossische Zeitung.

This is the first big battle in which the Italians have taken part in the Balkans. They are under command of General Palazzi.

Tirana is eighteen miles east of Durazzo.

Ten Poisoned by Meat.

New York, Feb. 16.—One is dead and nine are at the point of death at St. Joseph's hospital, Far Rockaway, from the rare and deadly disease, "trichinosis," caused by eating the flesh of a diseased pig killed by John Fabrizio, a gardener, and served by his wife, Camille, for Sunday dinner. Their sixteen-month-old daughter, Mary died.

Ambassador Mayre to Quit.

Washington, Feb. 16.—Ambassador George T. Mayre, representing the United States at Petrograd, has broken down under the war strain, and has decided to retire from the diplomatic service. Confidential advices say he either already has resigned, or will resign in the immediate future.

Egypt Safe, Says Kitchener.

London, Feb. 16.—Adequate preparations have been made to guard against a threatened invasion of Egypt, Lord Kitchener, secretary of state for war, announced in parliament. The British forces in France have been increased by eight divisions (96,000 men), he said.

AIR BOMBS KILL 19 IN NORTHERN ITALY

Reports Show Great Series of
Attacks on Cities.

London, Feb. 16.—Reuter's correspondent at Vicenza, Italy, says that hostile aeroplanes bombed the Italian town of Schio, fifteen miles from Vicenza, killing six persons and wounding others.

(Schio is in northeastern Italy, fifteen miles south of the Austrian border and fifty miles northwest of Venice. It is a town of about 10,000 inhabitants, with extensive manufactures of woollens.)

Part Attacks on Cities.

Rome, Feb. 16.—The Austrian air raid over Milan on Monday was only part of a great series of attacks against cities in northern Italy. Reports received show that thirteen persons were killed and that extensive damage was done by fires set by incendiary bombs. Among the air craft in the fleet which made the attack were big armored battle-planes which it is believed had been furnished to the Austrian military authorities by Germany. In addition to the attack on Milan, bombs were dropped on Monza, where one person was killed and seven wounded and on Bergamo and Triviglio, where no damage was done.

One shell fell within the memorial chapel at Monza erected to the memory of the late King Humbert. Another fell upon the grounds of the Villa Reale, the former summer palace of King Victor Emmanuel. Many windows were broken in the cathedral of St. John a fourteenth century structure of the Lombard Gothic style of architecture.

LOCAL OPTION LOST IN N. J.

Assembly Defeats Measure by Vote of
Forty to Nineteen.

Trenton, N. J., Feb. 16.—The local option bill was defeated in the house of assembly of New Jersey, after a two-hour debate, the vote being forty against and nineteen for, with one member, O. H. Hammond, assemblyman from Somerset, absent.

The debate on the measure, which was passed by the senate last week, lasted two hours and a half. A feature was the opposition to the bill by south Jersey assemblymen, led by John B. Kates, minority leader, of Camden. Those who led in the debate besides Kates were Roberts, of Burlington; Wolverton, of Camden; Runyon, of Union; Sheppard, of Salem, and West, of Gloucester.

Diplomat Strangely Dies.

London, Feb. 16.—No inquest will be held in the case of the first secretary of the Italian embassy at London and former Second Secretary of the Italian embassy at Washington, Chevalier Roberto Centaro, who was found dead in a West End hotel yesterday, with a revolver beside the body. The Italian ambassador has claimed diplomatic immunity in the case.

BRITAIN TO BATTLE FOR 2-FOLD GOAL

George V Tells Parliament Europe
Must be Safeguarded.

WRONGS MUST BE RIGHTED

Premier Asquith is Optimistic of the
Outcome of War, But Points to Fi-
nancial Burdens.

London, Feb. 16.—The sixth session of England's war parliament opened with the following program of business before it:

The voting of another credit of \$1,250,000,000, which will bring the total war credits up to \$9,500,000,000.

Adoption of measures to strengthen the air defenses of England.

Amendment to the policy of blockade to prevent goods from reaching Germany through neutral ports and an extension of the navy's power.

Adoption of a policy of economy for the government and curtailment of imports.

Owing to the fact that the king is still indisposed owing to his accident in France last October, parliament was opened by a royal commission, and the king's speech was read by Baron Buckmaster of Cheddington, lord high chancellor.

The king's speech was as follows: "My Lords and Gentlemen: It has been my duty to summon you after a short recess to renew your deliberations. The spirit of my allies and my people, who are united in this conflict by ever strengthening ties of sympathy and understanding, remains steadfast in the resolve to secure reparation for the victims of unprovoked and unjustifiable outrage, and effectual safeguards for all nations against the aggression of a power which mistakes force for right and expediency for honor.

"With a proud and grateful confidence I look to the courage, tenacity and resource of my navy and army, on whom we depend, worthily to perform our part in the attainment of this goal.

"Gentlemen of the house of commons you will be asked to make due financial provision for the conduct of the war. My Lords and Gentlemen, the only measures which will be submitted to you are such as, in the opinion of my advisers, would be the attainment of our common object. I confidently commend them to your patriotism and loyalty, and I pray that the Almighty will give his blessing to your counsels.

The present session was the first to be opened by royal commission since the death of Queen Victoria.

Notwithstanding the changed conditions on account of the war the customary ceremonies dating from former centuries were carried out before the proceedings were started. Yeomen of the guard, in Elizabethan uniforms, searched the vaults of the houses of parliament, as has been done since the days of Guy Fawkes.

Premier Asquith's address on the progress of the war was the feature of the session. Mr. Asquith said that in the last few weeks there had been a recrudescence of activity on both sides in France, and that the allies had held their own well.

The situation of the British forces in Mesopotamia, which has been a source of concern to the English public, had improved materially, he stated. General Townshend, whose army is surrounded by the Turks at Kut-el-Amara, holding his own. He thought there was every ground for hoping the forces of General Townshend and General Aylmer, commander of the relief expedition, might unite and that anything in the nature of a serious British check might be averted.

"The government is taking stock of its munitions, men, finances and industrial reserves with a view to exerting the maximum of strength against the strength of the enemy," Mr. Asquith then stated. "It must be said, however, that there is no prospect of reducing the daily war expenditures of \$25,000,000."

Aunt Finds Niece Dead.

New York, Feb. 16.—Miss Helen Griffiths, of Mount Pocono, Pa., who left an invalid hospital to come to New York on a shopping expedition, was found dead from gas asphyxiation at the home of her aunt. Beside her was a man unknown to the dead woman's aunt, but whose name on papers found in his pockets was "G. Larsen." The man was unconscious, but may recover.

Twenty-One Die in Mine Fire.

Butte, Mont., Feb. 16.—Twenty-one men probably have perished, according to the rescue workers at the Pennsylvania mine of the Anconda Copper Mining company in a fire which started in one of the levels while 220 miners were at work. Nine bodies have been raised from the mine and twelve are unaccounted for. The fire at the 1200-foot level of the shaft was still burning.

For Government Ownership.

Washington, Feb. 16.—The senate passed, thirty-nine to twenty-three, a motion by Senator Borah to investigate the feasibility of government ownership of railroads and all public utilities.

TO VOTE ON LIQUOR BUT NOT SUFFRAGE

Consideration of V. For W. is
Postponed.

Washington, Feb. 16.—Prohibition amendments to the constitution, but not woman suffrage amendments, will be considered at this session of congress.

The house judiciary committee postponed considering the Susan B. Anthony amendment until next December. Proposals to postpone prohibition were lost on a tie vote.

Consideration of all suffrage proposals was included in the decision to postpone the Susan B. Anthony amendment, which it was decided to take up, is practically the same as the Hobson amendment, which failed last session in the house.

The suffrage vote, Chairman Webb said, showed a "substantial" majority in favor of postponement. None of the members wanted to disclose how the committee voted, but it was admitted that Representatives Moss, of West Virginia; Dyer, of Missouri; Morgan, of Oklahoma; Neely, of West Virginia, and Danforth, of New York, were absent. Suffragists at once began a campaign for a reconsideration of the committee vote.

GIRL CHASED BY BEAR

Falls Unconscious in Snow After Run-
ning More Than Two Miles.

Kittanning, Pa., Feb. 16.—Chased more than two miles by a bear, which she encountered in the road near her home in Furnace Run, Miss Sue Ressler, eighteen years old, was found unconscious in the snow in front of the powerhouse at the Mohawk mines. Her hands and feet were frozen and she was in a serious condition from fright and exposure.

When Miss Ressler became able to talk, she said she met the bear in the road as the animal emerged from a clump of woods. Although she tried to hide the bear gave chase and followed her until she dropped from exhaustion in front of the powerhouse. At that time, she states, the bear was less than forty feet behind her. It is believed that the buzzing of the electrical machinery in the power station frightened the animal.

Parade Condemned to Death.

El Paso, Feb. 16.—Six prisoners, under death sentence, were marched through the streets of Juarez for half an hour, escorted by three drum corps and a regiment of soldiers, prior to the execution of three of the condemned men. The execution was attended by a large crowd of civilians, at the invitation of General Gaviera.

Want Wheat on Canada's Free List.

Ottawa, Feb. 16.—Resolutions placing wheat on the free list were introduced in the Canadian house of commons. The aim of the resolutions is to obtain free entry into the United States of Canadian wheat and wheat products.

LEAVES FIRM TO OLD EMPLOYEES

The late John A. Hill, head of the Hill Publishing company, New York, believed with Benjamin Altman that good service extending over many years should be rewarded. Because of his belief two of his oldest employees came to their office the other day to find themselves possessed of a comfortable fortune, and about eighty others were notified by a notice tacked on the bulletin board in their locker rooms that they had inherited \$15,000 or more from their employer's will.

Mr. Hill's will was admitted to probate in Newark, N. J. Under its terms William W. Mayer, treasurer of the company, receives \$25,000 for his twenty-two years' connection with the firm, and Miss Rose Steiner, who was Mr. Hill's private secretary, receives \$50,000 for a longer period of service. The will also allows \$2,500 to every employee who has worked in any capacity whatsoever for twenty-five years in Mr. Hill's employ, \$2,000 for those who have served twenty years, \$1,500 for those who have served fifteen years and \$1,000 for those who have served ten years.

All Legacies a Surprise.

"The whole thing was unexpected," said Mr. Mayer. "I can't say how many employees will benefit by it, for, not knowing that this was to happen, I have not looked up the records. Mr. Hill made his will several years ago, and he expected to live longer than he did. That is why the provisions were made for the twenty-five and twenty year periods. There are no employees with such a record, as the company is not old enough, but there are about eighty-five who have served from ten to eighteen years."

They are of all sorts and all jobs, these beneficiaries. In point of service and in the amount of her inheritance Miss Steiner comes first. A little, dark, alert woman, she has been Mr. Hill's secretary since he came to New York as editor of the American Machinist more than twenty-five years ago, and cast her fortunes with his when he and August Sinclair bought the Locomotive Engineer in 1891. She and Mr. Mayer are the only ones remaining of those who became his employees at the time.

The remainder of the estate is to be held in trust for his wife, Emma B. Hill, and his daughter, Miss Jean Carlisle Hill. The business continues as before. It consists of five trade journals—the Locomotive Engineer, the American Machinist, the Engineering and Mining Journal, the Engineering News and the Coal Age. Mr. Hill died suddenly of apoplexy on Jan. 24.

ENGLAND FACING A HARD PROBLEM

Adoption of Conscription Bill
Recalls Draft Riots In 1863.

DISORDERS NOW EXPECTED.

Great Britain, After Months of Delay,
Finds It Necessary to Compel Citizens
to Join the Fighting Forces—What
Lincoln Said In Days of Civil War,
When Similar Steps Were Taken.

In England they call it "conscription," in America "draft." But the parallel between the conditions under which compulsory military service was adopted in the United States and the circumstances in which it becomes effective in Great Britain is quite complete.

In the sixties the United States was fighting for the preservation of the Union.

Half a century ago the United States adopted conscription as a method of obtaining recruits at a time when volunteering had almost entirely ceased, owing to the poor success of the Union commanders in the war with the south; England today requires more men for the successful prosecution of the war than ordinary methods of appeal have secured—more men by far than extraordinary efforts, including the Derby campaign, have won for the colors—and the "slackers" are unwilling to enlist in part because the prestige of victories in the field belongs largely to the enemy's arms.

In this country in 1863 there were large numbers of able-bodied men who were eligible for military service; in Great Britain in 1916 there are great numbers of eligible men who of their own accord do not come forward to enlist.

Also in the time of the civil war the government at Washington tried to avoid resort to extreme measures, but adopted conscription at last, while in England there was a long period of hesitation, and at last obligatory service is adopted.

The Draft Riots.

And finally in this country there were serious riots when the draft began operations, and in England the possibility of serious disorders has had the grave study of the premier and his advisers. Also in both countries a process of registration of all citizens eligible for service preceded the inauguration of conscription.

There are many persons who remember well the terrible days in mid-July, 1863, when the streets of northern cities were full of rioters, and the disorders had to be quelled by force of arms.

In New York the rioting lasted four days, in which the loss in killed and wounded men was nearly 1,000, and the damage to property, public and private, was estimated at more than \$1,500,000.

The disorders were not so serious in other cities. In Boston there was one riot, which threatened to assume formidable proportions, costing at least seven lives and the wounding of a score of persons. There was trouble in Portsmouth, N. H.; rioting occurred in Troy, N. Y.; and there was a deal of commotion in Holmes county, O.

This is the story of the draft and the riots which it occasioned, with a minimum amount of attention to the big riot in New York and a rather full statement of the troubles in Boston.

When the elections of 1862 were held the party of the Administration was defeated in such important states as New York, New Jersey, Pennsylvania, Ohio, Indiana, Illinois and Wisconsin. The adverse verdict against the party of Lincoln was a protest against the sacrifice of such vast amounts of life and treasure without the accomplishment of very great military results.

In some states the draft already had been put in operation, but as a state measure, to secure men for the militia. In Pennsylvania and Wisconsin there was open violence against it in August, 1862.

By 1863 volunteering had almost ceased. The efforts by the states to use the draft were not satisfactory, and at length a conscription act was passed by the national congress and approved on March 3 of that year. This draft operated directly upon the people of the nation instead of through the states as intermediaries.

In the south a conscription act was rigidly enforced. President Lincoln refused to suspend the draft or to delay it while waiting for a supreme court decision upon its legality, saying: "We are contending with an enemy who, as I understand, drives every able-bodied man he can reach into his ranks, very much as a butcher drives bullocks into a slaughter pen. * * * My purpose is to be in my action just and constitutional and yet practical."

The words of Lincoln apply to the situation across the water today and state the case for conscription almost as Lord Northcliffe himself would put it. With conscription it will be interesting to watch events and see what forms opposition may take and how stern that opposition may be. Human nature is a good deal alike on both sides of the water and does not alter much in a half century of "progress."

ACCUSE CONSUL CANADA

Carranza Officials Say He Was in Plot to Blow Up Battleship.

Washington, Feb. 15.—Carranza officials have informed the state department that they have heard reports of a plot to blow up the battleship Kentucky in Vera Cruz harbor.

They say Consul Canada is alleged to be involved, the object being to force American intervention.

The Carranza officials have been requested to present any proofs they may have. The state department regards the report as a continuation of the fire the consul has been under for months from Carranza officials, who accuse him of antagonism to their government.

Recently Consul Canada was home on a leave of absence, but the state department, after investigating various statements about his conduct, sent him back to Vera Cruz.

SUBPOENA FIGHT LOST BY BREWERS

Judge Thomson Decides Probe
Must Go On.

Pittsburgh, Pa., Feb. 16.—United States Attorney E. Lowry Humes, for the government, won the first skirmish in the brewery probe, through the refusal of Judge Thomson in a decision handed down to squash subpoenas issued ten days ago.

Judge Orr dissented in the following memorandum:

"I do not think I should dissent from the foregoing order, because the matter is one for Judge Thomson alone to decide. However, as I said on the bench during the argument for the motion, it is proper that, I should express my dissent from the views of the court. If the matter were for me to decide, I would quash the writ of subpoena duces tecum."

Following the handing down of the opinion by Judge Thomson and the note of dissent by Judge Orr, it was announced by D. P. Hubbard, of counsel for the brewery association, that none of the latter's witnesses would be permitted to testify before the federal grand jury until the opinion in the case had been examined. An appeal of Judge Thomson's decision will be argued.

BAKER GOES TO YANKEES

Home-Run Cloutier Sold to New York Yankees.

New York, Feb. 16.—J. Franklin (Home Run) Baker, one of the most picturesque figures of the diamond, is the property of the New York American League club.

Colonel Jacob Ruppert and Captain Huston, joint owners of the Yankees, purchased the release of the slugger from Connie Mack, of the Athletics. Baker has signed a contract for the seasons of 1916-17-18.

The terms of Baker's purchase were not made public. On good authority, however, it has been learned that both Mack and the home-run cloutier were reasonable.

WHITE HOUSE CUPID AGAIN

This Time It's Lavinia Gibson, Laundress—Elopes.

Washington, Feb. 16.—Romance has again blossomed forth at the White House.

This time Lavinia Gibson, colored, one of the laundresses at the mansion, played the principal role.

On Saturday she left her tub and eloped. Having imbibed the atmosphere of preparedness, she married a soldier, John Mullen, colored. Today Lavinia is back at her tub, happy.

Jail For Postoffice Robbers.

Trenton, N. J., Feb. 16.—Judge Reist, in the United States court, imposed sentence upon the five men who pleaded guilty to robbing the Pennsylvania, N. J. postoffice in January. Frank Stebbins and Charles Collins were sentenced to five years and John Mayo and Frank Watson were sentenced to two years in the New Jersey state prison.

Argentina to Spend \$18,500,000 Here.
New York, Feb. 16.—Announcement was made that the Argentine government had sold to a syndicate of New York bankers \$18,500,000 one-year gold notes, the proceeds of which are to be kept in this country for the purchase of commodities formerly bought abroad. About \$500,000 has been borrowed here by the Argentine government or Argentine banking interests since the beginning of the war.

ARENDTSTOWN

Arendtstown—Mrs. Mary Reed has a large German Bible that was printed in 1788.

Messrs. Harry Lower and Carmo. Crum set traps along the Conewago creek one night recently and caught one skunk, one mink, one opossum, and six muskrats. They sold the skins for \$7.40.

At this writing we have about five inches of snow and fairly good sleighing. The thermometer registered six degrees below zero on Tuesday morning. The snow is a good protection to the grain and grass fields.

Last fall, at digging time, potatoes sold here at 60 cents per bushel. Now they are selling for one dollar a bushel.

On Saturday evening, February 26, at 7:30 o'clock in Warren's Hall, the Arendtstown schools will give an entertainment, the proceeds to be used for the purchase of an organ.

HOW TO REGAIN STRENGTH

The great factor that retards recovery after sickness is that weakened devitalized condition, and it will interest our readers to know that our local druggist, Wm. REALES, Prop., of the People's Drug Store has a reliable, non-secret strength creator called Vinol, which contains iron for Food, the curative medicinal extracts of fresh cow livers and the nursing properties of beef peptone, all combined in a delicious wine. For weak, run down, and those who regain strength after sickness, there is nothing better.

Medical Advertising AS WE GROW OLDER

our minds are quite as active as in former years but our strength does not respond when we need it most; perhaps the kidneys are weak, the liver torpid, rheumatic pains or stiffened joints beset us, and we cannot easily throw off the colds that winter brings.

What we need is the rich cod liver oil in Scott's Emulsion to renew the blood and carry strength to every organ of the body, while its glycerine soothes the respiratory tract, and its hypophosphites strengthen the excitable nerves.

Scott's Emulsion is a scientific oil-food, of unusual benefit to those past fifty years—particularly during the colder seasons, it imparts warmth and creates strength. One bottle will prove its worth. No alcohol or harmful drugs.

Reminiscent Indulgence.

Retrospection may be defined as that form of reminiscence indulgence that enables one to swell up like a strutting turkey gobbler when he thinks of the good deeds he performed in the year behind him until he passes to the vast palpitating mass of meanness that he put over during the same period.—Houston Post.

Popular Japanese Pickle.
An article of food universally popular in Japan is the Japanese pickle made principally of garden vegetables, especially the large Japanese radish. Cucumbers, eggplant, small turnips and greens of various sorts go to make up this apparently vital accessory of Japanese meals. It is made by pickling the various articles in salt with a paste of powdered rice, bran and some vinegar, and to most foreigners the taste and smell are alike objectionable.

Beauty and Ideals.
Browning makes Fra Lippo Lippi say: "If you get simple beauty and naught else you get about the best thing God invents, and you'll find the rest within yourself when you return him thanks." It seems to me that if we substitute for beauty, true ideals, the quotation applies most aptly to our view of the purpose of education. "If you get true ideals and naught else, you get about the best thing God invents."—Exchange.

HERE'S NATURE'S OWN REMEDY FOR CATARRH
Hymeyl Relieves Catarrh Without the Use of Dangerous Drugs.

Not until Hymeyl was discovered has it been possible to truthfully say that a real remedy for catarrh was known. Hymeyl is an oil and its air is breathed through a small inhaler furnished with it for a few minutes a day, and during that time every particle of this Hymeyl-laden air taken into the air passages and lungs is impregnated with a powerful germ killing and health-giving antiseptic. Sprays and lotions often cause disorders of the respiratory tracts or bring on some other diseases and never make a permanent cure of catarrh. But when the air of Hymeyl penetrates to the inmost air cells of the lungs and enters the blood with the oxygen it not only kills the germs in the throat and nose, but kills the bacteria in the blood, freeing the mucous membranes from poisonous microbes and giving perfect health.

A complete outfit is inexpensive and includes an inhaler, dropper and sufficient Hymeyl for several weeks treatment. The People's Drug Store have so much faith in the merit of Hymeyl that they agree to return the money to any purchaser who is not thoroughly satisfied.

Their Day of Pleasure.
Not long ago a North country vicar married an elderly couple at 11 o'clock in the morning. At three in the afternoon his duties took him to the neighboring cemetery, where he met the same couple seated lovingly on one of the benches. "You see, sir," the husband explained, "my wife is a rare 'un for pleasure. I wanted to go back to me work this afternoon, but th' missus sed wed better enjoy ourselves to t' full and mak a day on t'."—London Answers.

Fortunate Accident.
"That there least boy of mine, Bearcat, takes after his maw's mother," stated Mr. Gap Johnson of Rumpus Ridge. "It's a lucky thing that he wasn't born a two-headed boy, or he'd shore battle himself to death."—Kansas City Star.

Homely Women Make Good.
The desire to be beautiful is a normal one and not to be set lightly aside as unworthy, but to make the lack of beauty a cause for unhappiness is not only morbid but stupid, since thousands of women without perfection, either of form or of feature, have lived vividly and joyously in spite of the handicap of homeliness.—Virginia Blair in Good Housekeeping.

Why Falsehoods Live.
Some men relate what they think, as what they know; some men of confused memories, and habitual inaccuracy, ascribe to one man what belongs to another; and some talk on without thought or care. A few men are sufficient to broach falsehoods, which are afterwards innocently diffused by successive relaters.—Johnson.

ADVERTISING YOUR SALE PROPERLY

In a sale that amounts to a thousand dollars or more the proceeds can readily vary to the extent of \$100. A crowd of good bidders will make your goods bring easily \$100 over the amount they would bring from a poor crowd. There is just one way to reach the good bidders—people with money—and that is through the newspapers. Naturally the newspaper with the largest circulation is the one to use. From a business point of view you cannot afford to neglect advertising your sale in

THE GETTYSBURG TIMES

AND

ADAMS COUNTY NEWS

They reach not only the most, but the best people in the County.

We will advise you honestly when you ask our help with your advertising. Experience has taught us what you need to get results. We will tell you that and will not urge you to spend more money than we know is necessary. Our rates are the same as papers with half the subscribers we have. And if your bill amounts to \$5.00 or over we give you 500 cards free of charge. If it is less we charge you the same price you pay other shops for the cards.

Advertising your sale is a business proposition, we understand what you need and our experience of years of the County's biggest sale business is at your service.

ADVERTISING DID IT

A few years ago no one bought furniture in February, now every one buys it.

What created this immense business.

Advertising—definite newspaper advertising by city stores. Country people wait for these sales and go to the cities to buy.

Certain merchandising savings were possible if people would buy in February.

The advertising made these facts known and the response was instantaneous.

Instead of being a dull month, February is now one of the busiest in the city furniture store's calendar.

Antiseptic Ucanol Stops All Itching
and Quickly Heals Sores.

Our many sufferers from raw and
itching skin, eczema, salt rheum, and
kindred diseases will welcome the
news that a new anti-septic—Ucanol—is
now on sale by the better druggists.
It so promptly allays all irritation and
begins its healing that it is daily making
an amazing record for its curative
powers in overcoming some of the
worst and most chronic cases.

Antiseptic Ucanol kills the germs in
the diseased skin and stimulates the
tissues to grow new, healthy flesh,
free from all soreness and eruptions.
A liberal quantity can be had from
The People's Drug Store for not more
than fifty cents, who will supply you
with a guarantee of money refunded
if it does not do all that is claimed.
Why continue to suffer with any dis-
figuring, agonizing skin affliction
when you can use the scientific com-
bination of healing antiseptic agents
combined in the always safe and ef-
ficient Ucanol without risk of more
loss?

GRANDMA USED SAGE
TEA TO DARKEN HAIR

She Mixed Sulphur with it to Re-
store Color, Gloss,
Thickness.

Common garden sage brewed into a
heavy tea with sulphur and alcohol
added, will turn gray, streaked and
faded hair beautifully dark and luxu-
riant, remove every bit of dandruff,
stop scalp itching and falling hair.
Just a few applications will prove a
revelation if your hair is fading, gray
or dry, scraggly and thin. Mixing the
Sage Tea and Sulphur recipe at home,
though, is troublesome. An easier way
is to get the ready-to-use tonic, cost-
ing about 50 cents a large bottle at
drug stores, known as "Wyeth's Sage
and Sulphur Compound," thus avoid-
ing a lot of fuss.

While wispy, gray, faded hair is not
sinful, we all desire to retain our
youthful appearance and attractive-
ness. By darkening your hair with
Wyeth's Sage and Sulphur, no one can
tell, because, it does so naturally, so
easily. You just dampen a sponge or
soft brush with it and draw this
through your hair, taking one small
strand at a time; by morning all gray
hairs have disappeared, and, after an-
other application or two, your hair be-
comes beautifully dark, glossy, soft.

Infant Rash
and Chafing
Quickly Healed by the use of

Read what this trained nurse says
"I used Sykes' Comfort Powder on
this baby for rash and chafing with the
very best results. It is
soothing, cooling, and
healing to the most deli-
cate skin. I have used
many other powders but
have never found any-
thing to heal skin sore-
ness like Comfort Powder."
Burbridge, nurse, Manchester, Conn.
Used after baby's bath it will keep the
skin healthy and free from soreness.
Not a plain talcum powder, but a highly
medicated preparation unequalled for
nursery and sickroom uses, to heal and
prevent chafing, itching, scalding, eczema,
infants scaldhead, prickly heat, rashes,
hives, bed-sores, and irritation caused by
eruptive diseases and bandages.
